

## ENERGY & ENVIRONMENTAL SERVICES CONTAINERS

CCS is a manufacturer of equipment for the Energy & Environmental Services Industries. Located in Central Pennsylvania, we offer a variety of Standard Products built Pennsylvania Strong. Whether it is a Heavy Duty Open Top Roll Off, Mixing, Sludge or Vacuum Box, CCS builds each container to the specifications of our customer and performs a static hydro test on all liquid tight units. We have made hundreds of containers that are currently in use in the Marcellus, Utica & Bakken Shale plays and pride ourselves on quick production schedule, willingness to customize, and quality construction.
